

# **DIALOGUES WITH THE COSMOS Part 5**

## **20.-22.07.2018**

### **North Italy/Switzerland**

***Dear All,***

the new ***Dialogues with the Cosmos Part 5*** is up and coming!

It will take place in the mountains of ***Baceno VB/ North Italy & border Switzerland*** this year.

The **Dialogues** starts on **Friday, 20th of July** at **15.00** and will end **Sunday evening 22nd of July** app. **22.00**.

Each day, Ananda will first give his briefings in his well-known lecture style to the Dialogues group. This will start on **Friday at 15.00, Saturday and Sunday at app. 15.00** in the afternoon and *will end after dinner in the evenings*.

The group will have dinner together in one of the restaurants nearby the lecture place (depending on the group size).

After the dinner & the last briefings, the group will gather & drive to the mountain sites to go out in the field, which will take until early morning hours (normally until 4.00-5.00 a.m.).

Then the group will return & meet again around 15.00 in the afternoon.

The participants are free to have breakfast/lunch/explore the area or sleep until the group gathers again at 15.00 on Saturday & on Sunday.

Ananda will go with the group into the Italian-Swiss mountain area. This time, we will also have new measuring equipment with us and we would advise you to bring some walking shoes (see list below).

The walks will take app. 5 minutes from the parking space and are easy walks to the field spots.

***Please let us know if you come by car as we have to gather all cars to drive the participants to the mountain sites.***

**Venue:** ***Baceno (VB) School***

**Accommodation:** We advise all participants to book in one of the nearer B&Bs or taking an apartment together (or of course a hotel room), as this gives the group

the best flexibility and independence.

This can be in Baceno, Premia, Piedilago, Varzo, Mozzio or Domodossola.

**What to bring to the Dialogues with the Cosmos 2018:**

- All participants must have extensive notepads and good writing pens, for instant writing signatures, for things like ET-RV.
- Good mountain/walking shoes!
- A Thermal cover, to keep one warm in cold temperatures.
- A blanket, or thermal blanket and cushion, or portable chair, light enough for the mountain and field walks in the wilderness.

***- An open heart and mind, ready for adventure and fundamental fun :-)!  
Critical analysis comes after the Field Work.***

- Gloves for the night,
- Mosquito repellent (preferably one that will not poison you & others)
- Thermos flask with coffee, tea, mate tea, or hot chocolate

- Guarana (preferably bio). The field work is in the night, so Guarana will help you to be awake and be in a clear biofeedback state [note this is NOT mandatory, and special diets, caffeine free, or health advised against caffeine should not take this item. Take ginkgo biloba instead, grown in Europe, not from China, these contain heavy metals]. It also makes your blood alkaline, so mosquitoes don't find you so attractive (like B-vitamins), and it contains malic acid/malin saure, which is one of the only elements to remove aluminium out of the brain. Its effect is like a combo of chocolate and coffee. Ginkgo biloba is a useful "smart nutrient". Smarts like amino acid DMAE with amino acid tyrosine can be useful here too.
- **If you have more of any of the above items, bring them along, some future AUMbassadors who do not have them, could use them in the field work to assist the group into closer interactions.**

**If you have**, please bring the following with you:

- Bring a quality digital recording device, or tape recorder, for your voice, sounds, instructions, and other recordings (one that produces as little operating noise, and as little luminosity, as possible). iPad/iPhone/iPod Touch has an audio recorder
- It is advised to also bring binoculars if you have them (night vision is even better),
- Laser pointers if you have them, the stronger the better (although focus on ETI-ESP is superior to the external laser for the subjective, often giving the individual profound experience, realisation and ecstasis, due to this direct interactive response through the ETI-ESP "Pulse Bio-Laser" — the physical laser gives the objective for the camera, and others. You will be asked to use restraint and NEVER point on any known aviation object.)
- Polaroid cameras, if you have them, MAY at times pick up phenomenon,
- Night Vision hand held telescopes, when you have them, or night vision binoculars, when you have them. **Or Santilli-Telescopes**
- Night vision cameras when you have them.
- Night vision photo cameras, or photo cameras that can be set to quality night vision mode
- A compass.
- A good torch light.
- Highly portable frequency analysing equipment (that creates as little disturbance as possible). There are also some basic ones available for the iPad/i... etc., on the Apple Apps store

**This is just the beginning. And there are 33 years of experience to pass on, for this "Awakening Dream" NU Cycle, for an Awakening Mankind.**

**What is taught is to be practiced in private as well. Practice makes perfect!**

*The goal is not to sight a UFO or "unknown phenomenon", it is to make a coherent Bridge and act as Golden Via Mediators on behalf of Mankind, in the local area, country, continent, and planet.*

*Enabling the opening of Spaces and Times for more direct interactions and interfacing.*

**And then to continue doing this in Team Work, in cooperation with the international AUMbassador to the AUMNiverse Task Force Units. Which are occurring and will continue to occur regardless of the success, or lack thereof, by anyone particular unit or Stargazer group.**

**The implications are immense, and the outcome inevitable, regardless of the time it takes.**

**This is cascading into co-operated efforts with other Star Gazer groups of mutual coherent intent and the Kindred Spirit of co-operation in Dialogues with the Cosmos.**

**This is just the beginning of a new cycle that will see the awakening of humanity , where participants will be enabled to become themselves AUMBassadors of the AUMniverse.**

**Please feel free to share & circle this send-out among your greater families, friends and kindred spirits.**
