

## Beyond Death & Reincarnation The Workshop The Afterlife & its many Octaves New Views on Immortality

When **Ananda** was a teenager, he was trained by the **Numinous Intelligences of the Emmanuel**, and the Umbrella Civilisations working beneath these ultraterrestrial Light Beings.

He was trained in Out Of Body Experience (OBE) work, where he was taken, on an almost daily basis, through the various "afterlife" planes, where he had to engage in work, for his training.

His ability to travel Out of his Body, came following a NDE (Near Death Experience), when he was 15, which opened up the contact; and by close encounters with the UFO that followed.

The OBE would be engaged through hours of deep meditation. This was often coupled with ET-VR: Extra-Temporal Virtual Reality, which was like an Augmented Reality engaged by the UFO Intelligences living computer systems and reality synthesizers. As well as being taken into the UFO.

To help co-ordinate this, Ananda, was trained by Emmanuel, in "Dream Yoga", which assisted him in unifying the OBE, Meditation, ET-VR, Remote Viewing, being taken into the UFO, clairvoyance, dreaming and lucid dreaming — into one interactive, cybernetic canvas, acting as a spring board to the many realms of being.

Drawing from this direct experience, Ananda will reveal, as never before, details drawn from these experiences, and methods to utilize by the individual. This Weekend-Workshop encompasses and details the following topics:
