

GRAILZINE "COSMIC IMPACT":
ETI DISCLOSURE FROM SOVIET PRESIDENT & US PRESIDENT, IN
SERIOUS HUMOUR, & DETERMINED ASSERTION
copyright © 2015 Ananda MJ Bosman

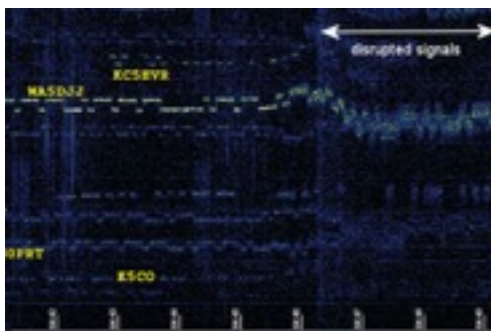

(NOTE: the February 27, 2015 Grailzine, "The Human Meditation Of Cosmic Disclosure: Unidentified Aerial Phenomenon, Beams, Radiations, Realisation, & Healing", should be read with this posting, and gives detailed documentary sources: <http://anandabosman.com/anandabosman.com/GrailzineTheHumanMeditationofCosmicDisclosure.pdf>)

The unfoldment of the cosmic disclosure process is whirling away at high speed, it would appear.

US president Barak Obama, joins two Russian presidents in making statements about Extraterrestrials, including DIRECT contact. On March 12th when the US president appeared on the Jimmy Kimmel Live show (below).

Big things are unfolding, in the world. A blast from our sun has destabilised Earth's magnetic field for the last few days, perhaps serving as a gentle reminder to some that there is "an intelligence" in the sun, as Purdue university and Stanford university scientists proclaimed some years ago. And now amidst the sun-moon gate of the equinox solar eclipse and the lunar eclipse of the 4-4-2015:

*"Earth's magnetic field is still reverberating from a CME strike on March 17th that sparked the strongest geomagnetic storm of the current solar cycle... Amateur radio operators noticed strong disruptions to long-distance communications. "Shortly after the CME hit on March 17th, we experienced strong disruptions on the 30 meter (10 MHz) band. [Pictured below] is a screenshot of 200 mW transmissions on the path between Las Cruces, New Mexico and Northland, New Zealand as received by ZL2IK." "The signal disruption happened on this radio path about 15 minutes after the CME arrived and shifted the frequency of mine and other signals which were traversing that path."
<http://spaceweather.com>*

In December 2014, this author stated in the German public that in March Obama would possibly make a statement concerning the cosmic Intelligence engaging us. Not because we are prophets, but because political lobbyist Steven Basset had people on the inside who not only supported him, but related that Obama was going to make a small admission. Basset has not taken credit for that yet (so I state it here). President Obama makes his statement now following the Million tweets, emails, Facebook notifications, and faxes made by the civilians of our planet, regarding the CHI: Congressional Hearing Initiative..... And Obama makes his statement, timed shortly after his "Counsellor to the President", John Podesta (also Chief of Staff under president

Clinton), making his world media announced statement concerning declassification of the UFO files.

Instead of taking any credit to having informed us months before, that Obama would make some form of admission, Basset rather stating in his March 17th PRG release: "*The Chess Game Continues. Can You Find the Strategy?*" Stating:

"After the Podesta tweet spread throughout the Internet, political media interest in the CHI became energized. An expansive article was published in the important political newspaper [Roll Call](http://hoh.rollcall.com/ufo-activist-to-capitol-hill-beam-me-up/?dcz=). [hoh.rollcall.com/ufo-activist-to-capitol-hill-beam-me-up/?dcz=]

"More [articles](#) followed, and meetings with Capitol Hill staff began in early March [www.paradigmresearchgroup.org/articles/PRGarticles.html].

"Shortly thereafter President Obama scheduled an appearance on the [Jimmy Kimmel Live Show](#) for March 13. He asked Kimmel to query him on the matter of extraterrestrials. Mr. Kimmel began his question in nearly identical fashion to the same question asked of President Clinton on April 2, 2013. His appearance generated [news stories](#) world wide [www.paradigmresearchgroup.org/newsitems.html].

"When you watch his response, keep the CHI in mind. PRG contends his appearance was an act of inoculation by means of a "limited hangout."

(<http://www.paradigmresearchgroup.org/Update3-17-15.htm>)

Following John Podesta's global media coverage of stating his only frustration in leaving the Obama cabinet was not to access and release the classified UFO files to the public, as published in the New York Times and Washington Post (<http://www.washingtontimes.com/news/2015/feb/15/inside-the-beltway-john-podestas-extraterrestrial-/>) something he has been wanting to do since the 1990s, Obama states that such declassification is not allowed:

"The aliens won't let it happen. You will reveal all of their secrets. *They exercise strict control over us.* [emphasis ours]"

Whilst the interview is hilariously funny, the president pre-scripts all such interviews, and clearly wanted to be asked about UFOs in the pre-scripting process. The interview is here:

"Obama On UFOs: President Tells Jimmy Kimmel 'I Can't Reveal Anything'"
http://www.huffingtonpost.com/2015/03/15/ufos-obama-kimmel_n_6863142.html?utm_hp_ref=tw

One can view Obama's statements in balance with those of the present Russian president Medvedev, who related in no uncertain terms, that the reality of "ETI" civilisations visiting us is conveyed to each new president:

"Along with the briefcase with nuclear codes, the president of the country is given a special 'top secret' folder. This folder in its entirety contains information about aliens who visited our planet.

"Along with this, you are given a report of the absolutely secret special service that exercises control over aliens on the territory of our country ... *I will not tell you how many of them are among us because it may cause panic.*"

There is a lot of speculation on Putin, but with Medvedev it is in statement. Every Russian president gets briefed on the reality of the extraterrestrial presence, together with the nuclear programs. In fact nuclear programs and UFOs go together hand in glove. The UFOonauts HAVE TOTAL CONTROL over us, from a nuclear point of view.

CNN Press Conference: <https://www.youtube.com/watch?v=3jUU4Z8QdHI>

The documentary “Men in Black” that president Medvedev mentions is a Russian UFO documentary released before he made that statement, which was on national TV, and government sanctioned.

Here is the Russian President in his own words:

“Russian President Dmitry Medvedev discloses aliens and UFO secrets”

<http://youtu.be/ykSvFdhXsqA>

President Medvedev stays deadly serious to the journalist, who cant believe her ears. When she asks how many aliens are amidst us. He replies the number cannot be told, it would create mass panic. Apparently Medvedev was not aware that he was still being filmed, some, like the British “Telegraph”, newspaper maintain.

This, statement takes on greater significance when another Russian president testifies to having actual physical contact with the extraterrestrials.

The full Russian Men In Black documentary president Medvedev is referring to, which was State authorised is here:

http://youtu.be/kR014_jY7po

Dismissal becomes more challenging, when President of the Republic of Kalmykia in the Russian Federation from 1993 to 2010, Kirsan Ilyumzhinov, tells of his invitation to an alien spaceship, and going onboard. Interviewed by a serious journalist, who shows concern when conducting the interview.

Whilst also being a world chess master, President Ilyumzhinov comes clean to having been taken onboard the UFO, and asked the humanoids to be returned because he had important political meetings to attend.

He also states that they are amongst us....

<http://youtu.be/ufCqRa5KZyk>

When viewed this way, these three presidents together (there are others, as most know), appear to be “starting” a gradual form of global disclosure. And in the process comes the best documentary evidence, that our nuclear programs are under the strictest control by the UFO Intelligences. Nuclear war gaming is, by the evidence, exactly that *gaming*:

<http://www.ufohastings.com/articles>

<http://www.ufohastings.com/documents>

<https://www.youtube.com/watch?v=3jUU4Z8QdHI>

Now join to the above two Russian president’s extraterrestrial statements, high level Russian Military sources that state they were engaged in the study of not only UFOs, but also of the extraterrestrial presence on earth, and even projects to establish communication contacts with the UFO Intelligences — then things get a more broad perspective...

This is actually the case. The Russian Academy of Defence already gave their disclosure testimonials to their DEEP work with the ETI Presence. There has been a sure gradual disclosure by the Russians.

The Soviet Defence Academy having some highly specific classified projects regarding the reality of the super civilisations we are amidst and a part of, via the Subanthropic principle of CERN particle physicists Dr Beatriz Gato-Rivera (*A Solution to the Fermi Paradox: The Solar System, Part of a Galactic Hypercivilization?*, In journal *PHYSICS*, 12 January 2006).

The Russian Academy of the Antiaircraft Defence of Tver, Red Flag, gave the testimonials from Three-star General Ghennad Rescetnikov and his Delegation of Major's, Lieutenants, Generals, Colonels etc, that are named in the film, together with the testimony of Professor Boris Chourinov:

“UFO Disclosure In Russia - FEATURE FILM”

<http://youtu.be/VOeXWNW7OkE>

This historical testimony from the Russian, red alert, military, regarding their study of UFOs and extraterrestrial phenomenon, on behalf of the Russian government, and also studying the “aliens” amongst us... shows that Russian disclosure has been ongoing for a while. So this is not new news in Russia.... Not at all....

THIS IS THE BACKSET upon which President Medvedev and former president Ilyumzhinov, can be viewed, by reasonable logic. And the Obama and Podesta comments of this year, can take on new significance... Certainly, this subject is at the TOP gravity amidst these interests, and is gradually being conveyed to the acclimated public (both earthed and topside, and within-side, being the Modus Operandi involved in the acclimation, is our position in this, with Ontological side-kicks).

PRESIDENTIAL CONTACTEE & THE COSMIC ETI CHESS GAME-BOARD

President Ilyumzhinov's assertion that the game chess is extraterrestrial has quite some force behind it. In this author's *The Manu* series (over 5000 pages from 2002-2011), we examine some of the most archaic chess boards.

There are references in the proto Vedic literature, including the *Rg Veda* (believed to be the oldest literature source of mankind, with pictographic versions of some hymns amidst the 12,000 year old Sarasvati Valley River Culture seals. Stated to have non human authorship) — where the game of chess is a game played by the “space gods” (*Devakasa*) and ultraterrestrials (the *Manu*), through the 432,000 *Manusah*, or humanoid species.

In this proto-vedic system, which has intact the most archaic chess boards, and even tetrahedron shaped dice, the universe is a chess game.

The galaxy, via the *Vasta-Purusah* game board form of the 8x8 grid (there is also a 7x7, and 9x9 game grid for the *Vasta-Purusah*), is a game board playing the “cosmic people” breathing the Anthropic Impulse of the Anthropos: ISSA, as the *Kristinaam* (*Monsier Williams Sanskrit-English Dictionary*).

Issa-Kristi-naam: “the cosmic people, whose name (*naam*) breathes the Anthropic Impulse of the Godhead/ Anthropos”.

As we explore elsewhere, about 108,000 of the *Manusah* are in this *Issa-Kristinaam* state of super-civilisation, operating by the Subanthropic principle proposed by CERN nuclear particle physicist Dr Beatriz Gato-Rivera. Whilst the Anthropic Principle of an "Observer Orientated universe", is yet to be realised, by all 432,000 *Manusah*, or humanoid civilisations of our local group: *Antarmrda/Kasyapa Jagati* (& *Dvipa-Lokas*, in the Vedic cosmology. The Andromeda Local group of galaxies).

<http://www.aton432hz.info/432,000%20Manusah.pdf>

Regarding Chess as an ETI game brought to earth, President Ilyumzhinov's theory is referred to in the New York Times:

New York Times, 28 October 2013:

'He has said that he believes the game was invented by extraterrestrials, and he claims to have been abducted by aliens in yellow spacesuits on the night of 17 September 1997.'

http://www.nytimes.com/2013/10/29/world/europe/former-chess-champion-begins-a-different-pursuit.html?_r=1

Here he is with President Putin, as the British Independent newspaper, covers the Chess ET game story:

<http://www.independent.co.uk/news/people/profiles/kirsan-ilyumzhinov-chess-came-to-earth-from-outer-space-2085838.html>

But it is best to watch the former president himself state his contacts and the chess ET game story, from his own lips, in the Youtube video:

<http://youtu.be/ufCqRa5KZyk>

It is believed that a large game is on, and that the Russians are challenging the US to disclose. The game is larger.

Obama did in a way. Admitting, in humorous spirit, that we are totally under the control of the aliens. In terms of our Nuclear Programs, the CNN Press Conference in the Washington Press Room "UFO & Nukes", gives a 120 signed affidavits to the press, from former Military Nuclear Missile Launch Site personnel, that testify, together with declassified official government memoranda, that our Nuclear programs are under the heaviest scrutiny and CONTROL by the ETI presence, or the UFO Intelligences. They turn off warheads, and for the soviets, even turned one on, and World War 3 was inaugurating, the UFOs then turn OFF the missile, to SHOW THEIR TOTAL CONTROL... View the researched documentary evidence and testimony on this in "Launch In Progress":

<http://www.ufohastings.com/articles/launch-in-progress>

And with much more in "Recent Russian Newspaper Article Discusses UFO Incidents at Soviet and American Nuclear Weapons Sites":

<http://www.ufohastings.com/articles/recent-russian-newspaper-article-discusses-ufo-incidents-at-soviet-and-american-nuclear-weapons-sites>

The UFO Intelligences even automatically deactivate dummy nuclear warheads as physicist Dr Robert Jacob's encountered at Vandenberg Air Force Base, briefly testified on CNN Larry King Live:

"UFO Shoots Missile with beams - Vandenberg Air Force Base"

<https://www.youtube.com/watch?v=SO4FhJ3mjrE>

Dr Jacobs case from the early 1960s, of course, is amidst hundreds of documented cases (<http://www.ufohastings.com/articles> - <http://www.ufohastings.com/documents> - <https://www.youtube.com/watch?v=3jUU4Z8QdHI>) — but shows the extreme measures of caution shown by the UFO, even our dummy warheads.

In this context, president Obama could appear to have used this control factor fact to his advantage in formulating his statement, of course, all through the medium of humour, on a comedy show.... Etched in the historical media and public record, for historical purposes, one can readily ascertain.

The jokes are genuinely funny and well thought through, and will make many people laugh, and, thereby remember (humour channel one). That level is excellent. What is even more "surprising" is that the contents which Obama does use, are not necessarily lies, albeit in humour... But rather a using of known facts to his apparent advantage, whilst wrapping the statement in a humorous association.

There is no doubt that Obama is briefed at least to the point of John Podesta (see below). When one knows the larger story, having researched UFOs for 30 years, as a contactee, and then as an avid researcher beginning in 1990, holding a Copenhagen press conference on the subject in January 1991, with Danish mainstream news appearances, and completing our massive 600 A4 page book "The 'Alien' Presence" in 1992 — this statement from Obama is one of the most overt statements made by any US president (our book "The 'Alien' Presence" has a lot of amazing quotes including from presidents).

Especially considering the backset: his advisor John Podesta already having appeared in the New York Times and other mainstream media, concerning his frustration on not being able to secure the secret UFO files... And having written a comprehensive introduction to journalist Leslie Keen's epic book "UFOs: Generals, Pilots, and Government Officials Go on the Record", which you can read below, in which Podesta writes (*remember this was president Obama's Counsellor to the President, and Chief of Staff under President Bill Clinton, now Chairman of the 2016 Hilary Clinton campaign*):

"I have supported the work of investigative journalist Leslie Kean and her organization, the Coalition for Freedom of Information, in their initiative, launched in 2001, to obtain documents about UFOs through the Freedom of Information Act. In the spirit of inquiry, Kean successfully sought an injunction in federal court on one important case, as was her right under the law.

"The time to pull the curtain back on this subject is long overdue.

"UFOs: Generals, Pilots, and Government Officials Go on the Record involves just such an effort, and it appeals to open-minded people such as myself. Presenting the facts, the book includes statements from only the most credible sources...

“The distinguished COMETA authors—thirteen retired generals, scientists, and space experts working independently of the French government—had spent three years analyzing military and pilot encounters with UFOs. In the cases they present, all conventional explanations of something natural or man-made had been eliminated by the authors and their associated teams of experts, and yet these objects were observed at close range by pilots, tracked on radar, and officially photographed. They achieved tremendous speeds and accelerations, made sharp, right-angle turns in a flash, and could stop and stand still in midair, seeming to defy the laws of physics.

“What could this mean? Since *some of the military officers on the COMETA panel were serving with the French Institute of Higher Studies for National Defence, a government-financed strategic planning agency, their characterization of UFOs as a phenomenon with possible national security implications assumed a grave importance.* In their ninety-page report, written with objectivity, clarity, and logic, the authors explained that about 5 percent of sightings—those for which there is enough solid documentation to eliminate other possibilities—cannot be easily attributed to earthly sources, such as secret military exercises or natural phenomena. **This 5 percent seem to be "completely unknown flying machines with exceptional performances that are guided by a natural or artificial intelligence." In its startling conclusion, the authors state that "numerous manifestations observed by reliable witnesses could be the work of craft of extraterrestrial origin." In fact, they wrote, the most logical explanation for these sightings is "the extraterrestrial hypothesis."**

John Podesta now going on according to the New York Times, to become the right hand man of Hilary Clinton in her presidential campaign. Hilary who spent two days at the Laurence Rockefeller estate being briefed on the UFOs Best Available Evidence effort:

“Rockefeller Tells Clinton to Tell All About UFOs (press report)”

<http://www.foevidence.org/documents/doc1920.htm>

which Rockefeller placed considerable time and money into.

See February 27th, 2015, *Grailzine*, for details, and larger context, also concerns upon the backset of the Subanthropic principle:

<http://anandabosman.com/anandabosman.com/GrailzineTheHumanMeditationofCosmicDisclosure.pdf>

Also see:

<http://www.paradigmresearchgroup.org/Update3-17-15.htm>

for Steven Basset's context of the Rockefeller Initiative in the present US president's extraterrestrial statement, and in milieu with president Clinton also appearing in the same show Obama did in 2013, and scripting in the same question, when the Citizens Hearing on Disclosure was then thought to transpire...

And of course the Rockefeller Initiative itself:

http://www.paradigmresearchgroup.org/Rockefeller%20Documents/Rockefeller_Initiative_Documents.htm

And the Briefing document itself given to US congress members:

<http://www.openminds.tv/wp-content/uploads/Rockefeller-Briefing-Document.pdf>

For those who are concerned by the Rockefeller family involvement, we extrapolate and speculate in our February 27th *Grailzine*, which when taken with the Victor Marchetti article: <http://devoid.blogs.heraldtribune.com/15197/retro-friday-a-blast-from-the-past/> also explored in the above zine, together with the logistical choices for advantage that are at hand with this situation, including that of the Subanthropic principle factors — could indicate an attempt brewing amidst that family, to actually be progressive, whilst still maintaining profit for maximum duration, in a slow dribbling of the inevitable disclosure (also engaged by the cosmic Other... Out of the control of Oligarchies and other controlling factions. Not just according to us contactees, but in the evidence record itself [*Grailzine: The Human Meditation of the Cosmic Disclosure, Part 2*, will explore some of these], with other relevant information)...

STRICT CONTROL, THE ANTHROPOS & ANTHROPIC EMERGENCE IN AN ONTOLOGICALLY AWAKENING MAN

What then is the control for? And is control the correct word, for Subanthropic civilisations, protecting their own? Especially since the end, the Eschaton, is the emergence of Anthropic earth man, standing upon his coherent ontological existential foundation of being a co-creator, with coherence as its new blueprint. Perhaps more of a sovereign Supervision Oversight Mastery Authority, for redeveloping civilisational game plans.

In the Dialogues with the Cosmos II briefing, August 2013, in Silbertal, Austria (where 5 UFOs came to the dialogue group. Whereas in Dialogues 1, July 2013, UFOs came from far proximity making impossible aerial manoeuvres, to very close proximity, to ALL civilians present, on both consecutive nights. And even our tutor [some would say "muse"] Athena's golden ship was seen by the author together with Italian psychiatrist Dr Maria Louisa Cossu, escorting our convoy down from the Swiss Alps into Italy, after dawn. Athena's ship going at times in front of the alpine mountain line, and in front of the convoy. And maintaining herself over in-synch, but with different manoeuvres of her ship, during the majority of the decent from the high Simplon Pass into Italy. Dr Cossu also having observed one of the very near spheres close to the group) — we revealed another highly specific manner in which the cosmic Intelligences are clearly demonstrating their 'absolute control' over life on Earth. This is enough material to fill several chapters....

This level of control, is to the degree of allowing life on Earth, or the resulting total loss, more so than a nuclear war, with no escape possibility (as we have documented

elsewhere). Exercising total control of the very fabric of our solar system reality (and documented by high level physicists).

Perhaps the St Patrick's Day March 2015 solar Coronal Mass Ejection (CME) and the still reverberating Earth's magnetic field disturbance subtly may have been a pre-reminder of this to someone?

Just before the Solar Gate of the equinox eclipse, making a *Skambha* pillar with the Lunar eclipse of April 4th (see "*Skambh Pillar Matrimony Animation*" at the bottom of the <http://www.aton432hz.info> site to rekindle the hyper string sense of such events. Apart from the *Rg Veda* mirroring the DNA code, because it uses these cycles).

For those who need a little more than this apparent riddle of what could be controlling nature, more than control over our nuclear weapons, material to chew on in this regard can be found here:

http://432hz.com/Nu_Sun.html (there is MUCH more to this however)

This also gives new contact windows without covert military interference (the latter is in the documentary trail of evidence, concerningly so. But that is another story).

It is a prerequisite of the cosmic Intelligences, that such windows with non-interference by any special forces and early warning systems, may now be pursued by the civilians on Earth.

Of course, there are long steeped "wise men" that will try to push the limits of power, like an infant with matches, but there are different governors with different stirring values, even amidst these committee's it would appear (see our February 27 *Grailzine*).

NOTE Sun-Moon Gate to Galactic Synchronisation... Over the last 15 years this author has given detailed lengthy workshops demonstrating the exact and particular effects from our Moon, in such a manner as to appear artificial. We were not alone. Before us were researchers with other data, but then investigators emerged with a similar premise, but different logistical facts.

This author has uncovered some semantic evidence that parts of the *Rg Vedic* prose are based on the human genome. This is not a new area in ancient eastern studies, as scientists have proven the *I-Ching* to follow precisely such a genetic self-similarity, not only the 64 hexagrams, but the trigrams filling in the amino acid sequence ("*The Genetic Code of the I-Ching*", Dr Martin Schönberger)... Our work discovered the same system in the metric arrangements of the *Rg Veda*. The precise lunar cycle system is in fact a macro astro-metrical system to this (as we document elsewhere).

Of course the *Rg Veda* cosmology sees the sun and the moon different to our present view of these bodies. It relates, accurately that when one takes the lunar equatorial circumference 108 times, one has the distance to earth. Likewise, take the solar equatorial circumference 108 times, and one has its distance to Earth, when the mean of the elliptical cycle of earth around the sun is taken. In the proto-vedic, both spheres of the sun and moon, which are identical in size when seen from earth (unlike any other planet and satellite in the solar system) are in fact two points of the ends of one pillar, the cosmopolis or *Skambha* pillar. This is implemented in the vedic *Agni-Hotr*. The moon is a gateway to other Lokas or local domains, parallel worlds, like brane worlds, and its civilisations in the vedic view. Our experience with the cosmic Other, within the Tyco base, and how this sublunar bases are modulated, was the foundation of our breathing moon system theory.

In such a control system, via the sun and the moon, the earth must be adjusted, some control over our planet's spin rate and orbital speed, would be required over time. But until 1999 Earth's orbital speed had been steadily decreasing, as had been consistently measured over quite some time. Suddenly, awestruck

scientists at the National Institute for Science and Technology (Boulder, Colorado), discovered in 1999 that our planet had stopped this deceleration, as reported on January 2nd, 2004, by CNN:

“Experts agree that the rate at which the Earth travels through space has slowed ever so slightly for millennia. To make the worlds official time agree with where the Earth actually is in space, scientists in 1972 started adding an extra ‘leap second’ on the last day of the year.

“For 28 years, scientists repeated the procedure.

“But in 1999, they discovered the Earth was no longer lagging behind.

“At the National Institute for Science and Technology in Boulder, spokesman Fred McGehan said most scientists agree the Earth’s orbit around the sun has been gradually slowing for millennia. But he said they don’t have a good explanation for why it’s suddenly on schedule.”

In other words Earth had been adjusted suddenly. In autumn of 1998, Earth and the solar system were conjuncting the galactic centre (an even better conjunction will be in the year 2,222 AD, 1.6 solar diameters closer [a future time cell we assert is in hyper-temporal resonance with our conjunction era]).

Also in November of 1998, a strong gamma ray burst from Cygnus the Swan, proportioned in the golden mean, was beamed at our sun, as the Millennium group of scientists then pointed out, and made this author aware at the time. The gamma ray of coherence (\emptyset , the golden proportion), used the peri-solar region like a parabolic dish, or lens, changing the sun as measured by the elfrad.com network of Extremely Low Frequency Radar group of scientists. And released a CME, solar flare, that when it impinged earth, turned the Tromso magnetometer to register the same golden proportion in the Earth’s magnetic field...

Suddenly a 1.618033Hz signal was being detected globally by all the different ELFrad stations. And by December 30, 1998, started to become very regular. In early February 1999, when this author was with a small group renting the great pyramid in Egypt, ELFrad metres in their global stations found the 1.618 Hz signal became DAILY.

We are thinking along the lines of not just an earth adjustment in time, but a biological one as well (see below). We have shown in our August 2000 “The God Code: The Mathematical Evidence for All Is God,” that the moon has an exact genetic cycle to DNA geometric ratios to the trigger signal of life.

So here, the golden mean is 1.618, the frequency matched the pattern. From the 2nd highest frequency, gamma rays, in golden ratio, to the magnetic field magnetometer readings, of earth’s field in the same wave golden wave shape, and then to the lowest frequencies, but in the number sequence, accurate to many positions after the decimal. This is high embedded self-similarity ordering. I.e. intelligence.

On December 21st, 1998, and again on December 25, this author engaged a Dialogue with the Galactic Confederation, showing the above data to the group, and engaging work at the Thai pyramids of Kam Pheng Phet, precisely when the 1.618 Hz signal was blasting. Apart from one woman claiming it, we did not have any visual UFO sightings. But that was not the point of the working.

Our cosmic contacts related these frequencies to shifts in our genetic programming, or absorption of novel areas being inserted into our universe (to oversimplify). Only a few years went by, and two scientists come forwards, that have also followed the same research pattern: the Millennium Group and ELFrad scientists, and made discoveries in microbiology. Finding geomatic patterns in the 1.618033 Hz global ELFrad signals. Some of that work was, and still is, classified above top secret. Some of that work shows an intelligent pseudo particle, or discrete bundles of energy actually transforming our biological systems (I was given precise film footage that demonstrated this. But because I have not been given the go ahead to web publish it, I do not give names, here. But most of the readers here have seen parts of this material at our presentations.)

We have shown, elsewhere, that the Cygnus golden mean gamma ray laser beam focused on our solar system, was part of a 24 tetrahedron galactic wide array of new ultra high order gamma rays, synchronised over the galaxy. That is synchronised over 100,000 years, as if one vast living galactic neural intelligence. A galactic internet!?

So our planet suddenly synched with the moon in 1999, may have other direct relations. The earth was now settled in its circumnavigation of the Sun, with its mean orbital velocity being close to exact to being one ten thousandth of the speed of light in a vacuum (and the number 432 is the square root of this. We make 432Hz music in the equal tempering system). Earth’s mean orbital velocity now at 29,780 metres per second, means

the variance here is less than 0.64%. NASA Chief of Communications, Maurice Chatelain, also believed the Moon system was intelligently managed by ETI.

Now we have a total solar eclipse on the equinox. Meridian 77 (Washington DC) was fought over frivolously by the previous superpowers (British Empire and Vatican), for it would be the Spring Equinox March 21st 2000 AD.

The present eclipse is part of the Saros 120 cycle. This one passes by Norway and Greenland (Hyperborea):

<http://earthsky.org/space/march-20-eclipse-and-the-saros>

We also note that the Mexican solar eclipse on 7/11/91, also ushered in a wave of UFO sightings, now very well known, and giving fame to Lee and Brit Elders ("Masters from the Stars" film), and then to 60 Minutes journalist Jaime Maussan.

There is much to Saros, Saar, and the vedic AkSaara cycles. Much, indeed. In fact in the above gamma ray array story of the galactic synchronisation, there underlies a precise Saar cycle related to Jupiter, Saturn, and Sirius, which is in accord with the 100,000 years of gamma synchrony observed in August 1994, leading to the Cygnus golden signal, and the Earth's synchronisation with the moon. But that is a detailed story, of the high implied significance of our time.

The nuclear decay rate change of our reality by something by or in the sun, is a highly developing research unfoldment. Here is a 2014 paper:

http://www.researchgate.net/publication/264005533_Phenomenology_of_Rate-Related_Nonlinear_Effects_in_Nuclear_Spectroscopy

Interestingly, one of the scientists has gone into the novel isoelectricity field of the new hadronic mechanics:

http://www.researchgate.net/publication/267454049_Isoelectronic_measurements_yield_stronger_limits_on_hypothetical_Yukawa_interactions_in_the_40--8000_nm_range

So the "Sun Speaks" announcement by scientists, which also disclose that there is time dilation, or time expansion appearing in the physical substance comprising our reality, our body (an expansion that continues), from 2010:

<http://news.stanford.edu/news/2010/august/sun-082310.html>

Has continued to unfold. Something inside the sun is interacting with matter and changing its laws, changing time itself! Right now.

Ontologically, Being is adjusting our embedded descriptions and definitions of the qualities of Being, that we call physical reality. From the Anthropic Principle stance, as a civilisation amidst a Subanthropic principle supercivilisation, nurturing us towards being a sentient Anthropic co-creating Ontologically based civilisation — more nuggets for the Anthropic Ontological Macro buried treasure chest.

THE CONTROL FACTOR & ANTHROPOGENESIS

In the Subanthropic Principle proposed by CERN particle physicist Beatriz Gato-Rivera, our planet and galaxy must be amidst a super and even hyper-civilisation, that remains in stealth mode to us, until we achieve full sentience, upon our Ontological Existential co-Gnosis.

Where such anthropic principle relatives as the double slit experiment, where the observer effects the result, are paramount and tantamount. Or the ruthenium element heating experiment, where 64 flashes of light observed per second as the ruthenium is heated into its high ward spin state, has the observation preventing a high percentage of the ruthenium in attaining its high spin state. Less flashes per second observations, more is activated. And the control, no observed light flashes, the majority of the ruthenium attains its high ward spin state — demonstrates that our existential being, in observation, collapses the wave and its interaction, to a point particle value.

This with other experimental observations are evidences leaning towards the Anthropic principle (hadronic physics hyper- level brings this to a New Universe of Ontological implication. This is not related to Nobel Dr Charles Muses' "hyper-numbers", even if he claimed to be inspired by feline beings from Sirius, in his last book "The Lion's Path")... AND towards mankind Awakening to its power as Existential Sentient co-creators in the universal Anthropic Principle, as coherent observers of the universe...

The research for 24 years, by the *HeartMath* Institute has shown that only measured (ECG/ EKG) heart cardio-rhythm coherence (compassionate love), for 2 minutes, focussed on a DNA sample, enables the pilot to *will* the DNA helical strand to either coil, or uncoil. Even at a distance of half a mile. And recently controlled experiments where 3 concurrent results on the DNA sample were achieved simultaneously, by the single pilot focussing compassionate love, and WILLING with consciousness, the 3 outcomes. Expands the limits of the "control factor" in the universal or planetary game, and the Anthropic Awakening of mankind, to new implications.

(Biological Effects of Scalar Acoustic Energy: Modulation of DNA. Proceedings of the US Psychotronics Association., Columbus, Ohio, July, 1998. Glen Rein, Ph.D. Quantum Biology Research Lab Miller Place, N.Y. 11764); MODULATION OF DNA BY COHERENT HEART FREQUENCIES, Dr. Glen Rein, Ph.D. & Rollin McCraty, M.A. Quantum Biology Research Labs, Boulder Creek, CA. Institute of HeartMath, Boulder Creek, CA); ECG Spectra: The Measurement of Coherent & Incoherent Frequencies & their Relationship to Mental & Emotional States. McCraty R., M. Atkinson & G. Rein.. Monterey: Proc. 3rd Annual Conf. of the Internat. Soc. Study Subtle Energies & Energy Medicine (1993))

As we explore in detail together with other sciences, involved in the contact experience. In that sense. Mankind is under strict control by the cosmic civilisations, until Anthropic sentience and heart-mind will biological coherence has been achieved.

We have free-will, however, when in coherent states of WILLED COMPASSIONATE LOVE, whereby genetic changes can be effectuated. But the control studies show that all other states of consciousness, by the same pilots, cannot produce the outcome on DNA. Should we have genetic “free-will” to change the coiling of our DNA helices, without a foundation of coherence (compassionate love where the heart as strongest electromagnetic generator of the body, peaks in coherent cardio rhythms of 8Hz spikes, in the golden ratio) — we would be genetically dead, within weeks, if not days.... Our post modern stressed states replicating into our DNA coiling.... That’s a genetic international security threat, big time!

Hence, on a macro-level, strict control is apparent. And when elite elements of our species develop cheating technologies that suppress the overall end, Eschaton, of mankind itself emerging in Anthropoc sentience, so too must the very laws of nature be adjusted (http://432hz.com/Nu_Sun.html). Strict macro control... Except in coherence, with willed consciousness. And it is this coherence, and specific protocols thereof, that also engages the UFO (see *Dialogues with the Cosmos reports*: http://anandabosman.com/anandabosman.com/Dialogue_with_the_Cosmos.html, and *Grailzine February 27*: <http://anandabosman.com/anandabosman.com/GrailzineTheHumanMeditationofCosmicDisclosure.pdf>).

Furthermore, we have the Ontological Existential foundation of our Art of Being. Being is the primary, in Aristotle’s Ontology. In fact Aristotle calls every descriptive definition of Being, “metaphysics”.

This extends to include the branches of our modern science — the pure personally verifiable Ontological fact is *Being*.

Even with hadronic mechanics, it hinges upon this Ontological meta-definition, a physics which for the first time deals with true objectivity in the sense of also addressing the “inner problem” in physics. All other science dealt solely with the “outer problem”, an inner problem like our ionosphere could not be properly defined. Dr Chris Ilert who discovered that iso-geometry and the isomathematics of hadronic physics is the only manner in which 100,000 conch shell morphologies can actually be modelled as a living state in computer, operating in 6 dimensions of time — also admits that even this science, is still metaphysics...

The observer being in every experiment is undeniable. Existentialism in the Vedic schools, before Aristotle and after, goes deeply into the Anthropoc exploration of the Anthropos. And it is an existential examination everyone can prove for themselves, through deep enquiry, or INquiry, deep states of meditation upon the existential “Art of Being,” as communicating ultraterrestrial, Salvana-Emmanuel, called it in 1989.

In the Aristotle system, Being is then described into qualities, and defining those qualities, like elements, and then repeating the embedded definitions, and contextual sub-meanings, of those qualities of Being. And focussing on particular ones, like the appearance of the elements or material, according to descriptions of observation. Yet Being remains the prime....

Herein, the Ontology of Being, the Existential Actual, the control factor takes on a different post game vantage.

In the cosmic civilisation’s control of our planet, the existential foundation, is open to discovery for everyone, without exception. It is integrally consistent and essential to

achieve Anthropoc Civilisation, after stealth Subanthropic nurturing of early primitive sentience upon the existential ontological ground.

This civilisation time travels, and dimensionally jumps, between brane world universes, and have undergone every form of genetic manipulation possible, and beyond... This includes the expression of all the remaining 98% of DNA that is animal, insect, and vegetational, hyper-indexed hypergenetically with the 3-2% human DNA, as humanoids of every variety.

(see February 27 *Grailzine*, and also the "44 Multivalued Hyperdimensions of the UFO: & The 49 Parallel Humanoid Worlds" *Grailzine*, here: <http://anandabosman.com/anandabosman.com/HumanoidsoftheMultivaluedLokals.pdf>)

Our Emmanuel Ultraterrestrial Umbrella contacts, relate to man being a composite of millions of civilisations of the universe, in the past, present, and future, as an Ontological Hyper-sum. The *Rg Veda* models this through 432,000 humanoids, cross indexed to the 432,000 motor neurons that produce the hologram of our 5 somatic senses.

Interestingly, this genetic engineering aspect, also became the theme in the film "Jupiter Ascending", the new sci-fi of the Wachowski "brothers" that brought us the Matrix series. However, Subanthropic Principle is based on the solid logic of a particle physicist. And from the experience of this author, with the cosmic Other, over 30 years, consciously, and 42 years as an "experiencer," Dr Gato-Rivera's Subanthropic principle is close enough to the real deal...

A contactee is still, by and large, a social stigmata, and has consequences in sharing with anyone, the facts and impact that these contacts have. Any other subject but that one... Understandably so. Furthermore, it is utterly valid that the human being goes through the entire spectrum of questioning and respective examination of the actual nature of the contact and UFO phenomenon.... It makes the human richer... And the ontological congruence of cognisant coherence must fruitify from such examinations.

In this author stating his contacts with the cosmic Other, this does not necessarily mean nightly visits all the time. There are periods, or windows, in one's life. And there are vacant areas in time, where there is no contact at all — sometime for quite some time, no matter what. In that sense there is also strict control by the Other. And then suddenly it begins again, and one can consciously engage it with other witnesses, and gain close interactivity and even interface. Also the nature of the contact may utilise different routes over the course of decades. Yet the physical nature will be brought back again and again, without exception.

This author has been taken to the limits of interface with the Other, that he was capable of as a teenager, and in "window" periods where contact was allowed in dialogue with the cosmic Other, over the last 30 years.

This author has been inside the UFO, and other types of translational apparatus of the cosmic Other, and has had direct interactive interfacings with them. This author also clearly states that even the face-to-face and some of the strongest encounters with the Other, is only a small portion of the actual state and nature of the cosmic Intelligences, that one's nervous system can tolerate....

We are not alone, as hundreds of experiencers and contactees are coming forwards, and giving their various degrees of documentary evidence, as best as some of their abilities allow them to catalogue the presence of the cosmic Intelligences in their lives (view the Experiencers Speak:

[Alas the extensive videos are now removed from youtube. Only a few remain. Experiencers Speak 1 (2012), 2 (2013), 3 (2014), will now be joined by 4 (2015). Those of you that downloaded these videos, hold on to them, they are no longer available online, at present]:

<http://www.experiencersspeak.yolasite.com>

Furthermore, the contactees are joined by a former president, Kirsan Ilyumzhinov, who has publicly testified of his contacts, not an easy thing to do, and a very brave act, that in light of the disclosure process now clearly unfolding, has an important hall mark to give in its signature.

THE MARS AEDEN

Our "Cosmic Gate" *Grailzine* of December 2014, linked to the paper of plasma physicist Dr Brandenburg on nuclear explosions on Mars. And with the our January 24th, 2015, *Grailvine*: "Redline Disclosure: The Red Planet Amidst A Full Spectrum of Global Disclosure," we sent a copy of the actual paper as it had disappeared from the web, in terms of public accessibility.

Not only does Dr Brandenburg give evidence for a nuclear war on Mars, he has now expanded the evidence, and is presenting it at the NASA based 46th Lunar & Planetary Science Congress, in Houston, with new Trinitite findings. Here is a summary from the Daily Mail British newspaper:

"In November 2014, plasma physicist Dr John Brandenburg revealed his theory that an ancient civilisation on Mars was massacred in a nuclear attack.

"Now, he's back, and he's going to be presenting new evidence for his theory at a Nasa-sponsored conference today.

"A thin layer of radioactive substances including uranium, thorium and radioactive potassium on the surface provide evidence for this theory.

"And nuclear isotopes in the atmosphere apparently resemble hydrogen bomb tests - which he says occurred in two places on Mars, Cydonia Mensa and Galaxias Chaos.

"We have now found evidence of the nuclear melt-glass Trinitite (formed on Earth at the site of nuclear weapon air-bursts) at both sites of the hypothesised explosions and this will be presented at the conference,' Dr Brandenburg revealed to MailOnline ahead of his talk.

"This strongly supports my hypothesis of massive nuclear airbursts.'

"So far no scientist has offered any other explanation for this body of data.'

"The earlier result of a nuclear massacre stands,' he said.

"However, for this conference paper I chose to focus on the most important part of the hypothesis, the enormous nuclear explosions, which is the most extraordinary new evidence of past intelligent activity on Mars.

“My goal is establish the reality of the explosions to the scientific community, and their non-natural origin, and then focus on their targets.

“Rest assured the whole hypothesis will be discussed tomorrow. I will be waving around copies of my book: Death on Mars.’

“Dr Brandenburg also claims he came up with the hypothesis that Mars was once covered in an ocean, which Nasa recently announced.

“This is a fine old blood feud on Mars,’ he added.

“He also says **there is no natural explanation for his theory**, as they were **‘fast neutron’ midair explosions of about a billion megatons that turned large areas of Mars into glass.**

“This cannot be asteroid explosions, as that would have created large craters, and as at Hiroshima and Nagasaki no craters were created,’ he said.

“This is a weapon's signature.’

“Dr Brandenburg will also be presenting another of his theories at the conference, that Mars once has a ‘biologically stabilised greenhouse.’

“He says that the planet once had Earth-like temperatures and atmospheric pressures, and was abundant with life and an oxygen-rich atmosphere.

“And he says these would have been ideal conditions for life to form.”

<http://www.dailymail.co.uk/sciencetech/article-2998835/Were-Martians-wiped-nuclear-bomb-Physicist-present-new-evidence-bizarre-theory-Nasa-conference.html>

There is much more to the Mars story, and, furthermore, there is mounting evidence that the planets are not what we presently think they are. Hadronic astrophysics also radically changes our understanding of the planets, but there are some findings that are so peculiar, as to be likened to 3D to a 2D flatlander. But that is another story.

Dr Brandenburg did beat NASA to it, but here is the new story:

“Nasa finds evidence of a vast ancient ocean on Mars”

<http://www.theguardian.com/science/2015/mar/05/nasa-finds-evidence-of-a-vast-ancient-ocean-on-mars>

It is interesting now that NASA draws the world attention to Ganymede, the moon of Jupiter, having more water than the oceans of earth:

“Does Jupiter's moon contain LIFE? Nasa confirms Ganymede has an underground ocean beneath icy surface”

<http://www.dailymail.co.uk/sciencetech/article-2992096/NASA-confirms-ocean-Jupiter-moon-raising-prospects-life.html>

This is a moon that has been of central focus in our contacts, as we have stated in the public over the last 26 years, at least (and in private for 29 years). Our experiences with the cosmic Other following standing below the UFO, emerging one into a transportation that has sensorial reality, included voyages to bases at Ganymede, in August 1986, and on several other occasions (we coined this ETI-VR, or ETI Virtual Reality). Whether this Ganymede is in our present time line, the past, or future, is hard to ascertain with the logistics of what this author has been conveyed and drawing from the experiences. It seemed to be today, and that is how it is conveyed.

It is most interesting that the Jovian 4 Moons are deeply related to “star gate” myths in the proto-vedic (*Rg Veda*) and later vedic materials, a gate specifically to the region of the galactic centre, AND to other higher Loka’s or parallel life waves systems.

That Ganymede is the “water bearer” or “cup bearer” for the god Zeus (Jupiter), and that Ganymede in actuality has apparently more pure water than earth, is one of those odd mythological technical information line ups with our modern discoveries.

The oxygen auroras turning in at Ganymede have also been of central significance, as we have been presenting since the mid 1990s — our solar system is becoming activated by a greater density (which became a documented fact in 1998, when the soviet academy of sciences, released their findings in English).

NASA had found the most interesting qualities in the hydrocarbon high energy flux tube coming from the moon Io to Jupiter.... With superconducting like behaviour. And hydrocarbons are rich hadronic materials.... This author cannot reduce the significance to a mere paragraph, at this point. But a superconducting ring currents, of charged ions and hydrocarbons of this kind, could be seen as a "star gate" warp into the high ward spin state, and hadronic magnecular and hypermagnecular domains. As we have publicly presented for quite some time, more than a decade.

Since the 2006 announcement by a NASA scientist of their analysis of certain sonar sounds beneath both Ganymede and Europa, that were near to identical to Cetaceans (dolphins and whales), which also corresponded to actual observed movements beneath the ice by the Voyager II space craft — there has been a deafening silence. And even apparent gob stopping of the scientists who dared to convey the years of analysis of these sounds.

As we have been saying for years, evolution is an illusion. We are at least hyperevolutionary, which can be defined and chartered by hadronic mathematic's hyper-operator, but, more probably, Omnivolutionary. We are a living Omnivolution, in the Emmanuel Ultraterrestrial Umbrella communications of the 1980s — now scientists announce that transgenetic jumps of horizontal gene transfers across species, are part of the human genetic material:

"Mystery of our 145 'alien' genes: Scientists discover some DNA is NOT from our ancestors - and say it could change how we think about evolution

- "• Study challenges views that evolution relies solely on genes passed down
- "• Instead says we acquired essential 'foreign' genes from microorganisms

"This is the first study to show how widely horizontal gene transfer (HGT) occurs in animals, including humans, giving rise to tens or hundreds of active 'foreign' genes,' said lead author Alastair Crisp from the University of Cambridge.

"Surprisingly, far from being a rare occurrence, it appears that HGT has contributed to the evolution of many, perhaps all, animals and that the process is ongoing, meaning that we may need to re-evaluate how we think about evolution."

<http://www.dailymail.co.uk/sciencetech/article-2994187/Mystery-alien-genes-Scientists-discover-DNA-NOT-ancestors-say-change-think-evolution.html>

The science paper is here:

<http://genomebiology.com/content/pdf/s13059-015-0607-3.pdf>

Still a mere scratching at the surface compared to the hypergenetics field of hadronic chemistry and hadronic genetics (hypergenetics, where the animated symmetry unbroken DNA is hypergenetic, in hyper-relativity, hyper-temporality, hyper-locomotion, and hyper symmetry [see February 27th *Grailzine*, and hadronic links in the "44 Multivalued Hyperdimensions of the UFO" *Grailzine*]).

With a hadronically energising solar

system, as a “NU density”, a theme of our “New Universe” presentations since the mid 1990s, there is constantly new astronomical data coming in, adding to substantiate this direction of the nuclear transformation of our reality.

It was a concern of the communicating cosmic Intelligences already in the early 1950s, unfolded into the “neutrino sun” theory at the time, with Canadian communications expert, Wilbert B Smith, who also ran the Canadian governmental UFO study (see ‘The Solar Trumpet’ chapter of our 1999 book *“The Unity Keys of Emmanuel: The Interuniversal Perspective for the Unity of Diversity”*).

Finally, journalist Linda Mouton Howe has compiled one of the best reports on the mysterious auroras and high dust band above Mars, which defies any explanation we knew of in mainstream science (note that after a few months this article will no longer be accessible, so download it):

“Persistent Dust Cloud and December 2014 Aurora On Mars Still Mysteries”

<https://www.earthfiles.com/news.php?ID=2293&category=Science>

There is more going on with Mars than mere nuclear as we know it...

This Grailzine, with the other referenced materials, give grand indicators of what is at hand.

This March 20 to April 4th Sun Moon gate period, certainly has had some *deja vu* excitement preceding it. Another tickle into the “Awakening Dream”, for a growing Awakening Mankind, emerging amidst the cosmic intelligence of *homo cosmicus* and *homo omniversalis*, of the cosmic Anthropos engaging the civilisations of the universe into Anthropic co-Gnosis, and Apotheosis.

May the heart be humoured, and the soul nourished by the cosmic impulse. To the Heart-Will of compassionate love in the heart, as the sun and the moon in honeymoon commune: *Hieros Gamos* to each unique one, in sovereign coherence.
