

# III. UFO DINNER TV — AFTERWARDS

**By Ananda Bosman**

Dear Ones,

There will come a report on our March 16th UFO Contact. It was not face-to-face, on this occasion. But the UFO came to Tree Top Level.... Here are some ad hoc points to the OVNI Dinner TV 46, appearance of Ananda Bosman, on the 62nd Anniversary of the Eisenhower Muroc AFB Landing, on February 20th, 1954:

[21/02/2016, 02:22:23] SW: Corrected and Expanded:

[21/02/2016, 02:22:25] SW: [21/02/2016, 01:55:26] SW: Thanks dear Mark. I know it is a challenge.

It is 30 years of contact experience, and the hardest research efforts we could muster. You are doing a grand job. Keep up the good work.

And France has also done some splendid research over time, and has some real pioneers (Dr Jean Piere Petit I found interesting 26 years ago, he is in The Alien Presence.... he must still be around).

We will continue Dialogues with the Cosmos, as a civilian effort of coherent contact, and spreading that to gather objective, or documentary evidence...

This coupled to concerts specifically dedicated to Cosmic Contact, using 8Hz and 432Hz (1.618 Hz x 5, & 1.618Hz x 267), with circadian rhythms' 72 bpm, or its double 144 bpm — as a Cultural/Artistic effort to engage furtherance towards synergy (beyond the Majestic hotel group of 1919, ergo CFR core, and Rockefeller 5412 group [1954, ergo MAJI/PI-40 etc]).

As this issue MUST BE in the coherent hands of the civilians of earth, for the civilians of earth et al, a momentum that must surpass special interest groups to truly represent man of earth, on a civilian level.

Now with the Inner Balance App and ECG device of HeartMath Institute, and Mindwave software (plus hardware), that enables exact 8Hz biofeedback to be taught measured, objectively, and consistently (in maintaining coherence, and interacting with its effects, with willed consciousness, in effecting the DNA. And perhaps enabling a first glimmer of DNA intelligent coherent interface, with the hypergenetic intelligence...

*Hypergenetics:* <http://www.i-b-r.org/ir00013.htm>

*AND:* <http://www.santilli-foundation.org/santilli-scientific-discoveries-4.php> (see section 4.5 for hypergenetic basics... This field is vastly growing, along with hypergenetic medicine)

...And 8Hz being measured in the utmost coherent states of mankind (creativity, music, alpha wave inspiration, healing of 27 organic diseases, as par Dr Puharich's triple blind work over 10 years — compassionate love coupled to willed consciousness changing the genetic code, measurably for the first time [24 years of HeartMath research) — we believe that this is THE sign of an Emerging Anthropic Sentience amidst mankind.

That Anthropic sentience, or coherence of heart, mind, and biological life energy, coupled with conscious will power focus, is the measure required by the Supercivilizations/Hyper-Civilisations in Subanthropic stealth mode, to emerge in visible Anthropic states. Without direct intervention.

Evidenced in the detailed materials from Hessdalen (8Hz), Dialogues with the Cosmos triple 8Hz [EEG, ECG, ELF Coil], and similar efforts (ECETI CSETI some of the South American contactees etc), as just a few examples.

My 30 years of contact experience, has always had whole embodied heart-will consciousness produce the results. I produces the result in Dialogue civilians.

Dr Cossu last year, a psychotherapist, got sightings as close as 10 meters.

8Hz EEG compassionate love 8Hz heart coherence, is now objectively available to all citizens of mankind for the first time in our history.

Continued civilian quality practice of such co-creative efforts, practically amidst the civilians of mankind, is the key. As the new field of Hyper-evolution (hypertopic evolution), and its consequences gradually emerge into our cognosis.

Eisenhower was told in 1954, that the Other, would work individually work with mankind until they were ready, from within and without (“until they are ready”).

The iso- or Santilli telescope paper here:

<http://www.thunder-energies.com/docs/ITE-paper-12-15-15.pdf>

Since, announcement, no visible profits from the company.

Profits from the device were in the astronomy sector, as anti-matter galaxies and anti-matter cosmic rays have now been detected through the iso-concave lens (loads of citations to this in the science literature, with links to papers, in our “44 Multi-valued Hyperdimensions” Grailzine from early last year on [anandabosman.com](http://anandabosman.com). The 2nd half of this report is only hadronic mechanical links).

The nuclear reversing PlasmArc flow reactors, now being made available by the Indian hadronic mechanics scientists (note hadronic mechanics has little to do with CERN hadronic physics), is something we are preparing to make into an assimilable slide show for 90 minutes in the Turin “free energy” congress, Italy, late April, so people on an individual level can make this a reality (my translator has translated me since 1996, not many are able to... She does so instantaneously, it is an art, which also has made her THE translator of choice of scientists like Dr Korotkov. For a first time, you made a very impressive effort, I must say).

That the physics which make the iso-lens in the Santilli telescope, also has the already manufactured plasmArc flow reactors by which mankind, with only indirect intervention, can clean up the pollution of the planet, and now also reverse radioactive waste and massive fallout — is a boon, a coherent catch-22.

Furthermore, the Anthropic implications of the Hadronic Horizon in the 10 femto-metre range, being Macro Coherent Irreversible (beyond micro quantum states), according to observed experiments (the hadronic mechanical literature will almost fill a room, from floor to ceiling), and that femto-metre digital self assembly systems are being worked upon by pioneering maverick hadronic scientists like Dr Erik Trelle, Dr

Stein Johansen, and Dr Alexander Animalu — enabling quasi crystal assembly from the hadronic media itself ( $10^{-13}\text{cm}$ ), and enabling direct molecular interactivity including with the DNA, will be a problem to digest for Ray Kurzweil...

Since the hadronic horizon hyperdense medium, as demonstrated to have the 7 hadron wave-packets overlap in infinite recursion (toroidal)... that is to say in the heart of every atom, everywhere and every-when (Macro Irreversibility of the hypertopic plane) — also implies that the 10 femtometre “femto technology”, now being engaged, must be in accordance with the personal and impersonal infinite recursion toroid in the heart of every atom (from which sentience, cognition, and 8Hz comes. 8Hz emerges in the Magnetic Monopole of the proton-hadron, of the hydrogen atom {water’s dielectric resonance is 8Hz, and the water tetrahedron’s EM field resonance is 512 Hz ( $8\text{Hz} \times 8\text{Hz} \times 8\text{Hz}$ )}).

Hadronic femto-technology is the solution, thus, to nano and pico technology, which cannot overcome the Ontological factor of the conscious observer.

Pity about not getting into Jean Michel Roux. it all started with The Alien Presence, the first interview was only about that (initially his documentary, had many pieces on UFOs from me, I was the only person who was recorded in the Paris Mars studios. Including a highly specific Iceland incident involving the US and Russia, in trying to get into an ETI base there, one we know a lot about, through our contacts, its exact functions etc. Jean Michel says it may one day be placed on the bonus material version of his film. His passion 16 years ago, was to get Jaques Vallee, Myself, and several other researchers in a mind storm recording)...

In the 2nd interview in Paris, November 1999, award film maker Jan Kounen was also there, just in the early phases of his transformation. 3 months later he was in Norway for 3 days filming our work. The fountain of dense research, and researchers, he hunted down for years, and it become Other Worlds. Still on the skeptical side regarding ETI, he has our The Alien Presence, has some proper briefings, and his Shipibo master shaman, startled Jan, when we were in Peru in 2007, as I and him discussed contact, and that the Shipibo people have a long tradition of contact, with and without plants. The ETI factor is distinct to this. He plans to make a science fiction movie, which is inspired on myself, I have given him some other characters, and suggesting that themes of Dr John Mack should be included as well.

[21/02/2016, 01:56:26]: A splendid effort Marc, thanks for the endurance too. Do not be discouraged for your translation effort. For a first time, you did really really really well BTW. Impressively so.

Keep up the good work with your show, congresses, and other efforts. We support you. And we trust the French contactee’s and experiencers, will gradually dare to come forth. There are a few amidst our Dialoguing teams as well. They must be encouraged, and supported

All the very best. Ananda

# CHIEF MASTER SGT DANIEL SALTER

- US Airforce, Chief Master Sergeant within the NRO (National Reconnaissance Organisation), states that real ET's are actually "Beings of Light", & that they
- Make their bodies from solar system material, as an interface, the 'Nordics' — who advise the 'Grey' "life-seed carriers"
- Also robot Greys are made by them

# CHIEF SERGEANT DANIEL SALTER 'LIGHT BEINGS'

Same Description by EMMANUEL (1988/89)

"When 1 of the Light beings is created for a certain purpose, sometimes we can destroy them

"They really do not need body's if they are travelling thru space or travelling thru time

"But to manipulate things in a solar system to which they go to

"they take on the molecules of that solar system & they make them a body that they can use & manipulate

"The body is of no use to them when they leave here. They leave it behind, or it just dematerialises

"They are the workers, the ones that are about 5.5 foot, that are blond, pale, skin exposed to the sun too long, kind of reddish"

*—Life with a Cosmos Clearance — A Talk with Late Sergeant Daniel M. Salter"*

## MANU-EMMANUEL 1988: 10 Years BEFORE Sgt Salter's 1998 Presentation

- ✦ **"The ones that come from other systems... if craft are used, they are then given to the right aspect of this solar system, to be absorbed into itself as matter, as substance from the other systems.**
- ✦ **"This may happen with individuals bodies. For as they accept a body of this solar system, within the multi-spectrum densities & dimensions, they will give in exchange their body from the other systems.**
- ✦ **"Others will have their bodies preserved, while they interchange the energies in the relevant parts of this solar system."**

## **'TYCHO – THE VALLEYS OF THE MOON'**

October 11, 1992, Ananda's Voyage At 22

'I was taken to the Moon, descended down an electromagnetically induced opening in the surface. The **matter reacting like liquid** to the higher universal force

'Here I was in the **4th & 3rd densities** where the underground base was virtually vacant, the **brothers & sisters** being predominantly in the **5th**

'In the centre of the base there was a **device** similar to the Ark of the Covenant, which **was attuned & attuned the whole base** to the higher **animating Light** of the **higher universes**.

'Its *shape is impossible to describe*. It **generated heat**.

'From this higher dimensional transducer emanated **laser-magnetic streams** or lines, which *became the framework that held & facilitated the matter to hold the base's shape*.

'Along those **energy streams** were placed the most specialised shaped bed-like devices, the feet are higher than the head.

'The energy then flows through the body, allowing a **4th density body** to be recharged or **reanimated** with the Creators **Light**, as they merge into their *neurogenetic archives of light codes* to reassimilate, integrate & retrieve new functions & assignments from the Self, or they

- \* 'The Self may take the 4th density DNA codes & bilocate them into multiple time-frames in 4th density realities, when the Original Template is lying in these beds & higher universal stream flows, such as: an Earth assignment, space platform assignment, multi-mind telepathic transmission to various selected individuals over the planet etc.
- \* 'A 4th density manifestation is only undergone by a higher universal Light being if it's functions can be justified to have simultaneous impact on multiple 4th & 3rd density realities over an "animating time-ripple space" (over a given period of time).
- \* 'There were parts of the Tycho base I was not ready to view yet. Although I had glimmerings of the gigantic Meeting Halls which are in geometric harmonics & are massive.
- \* 'The whole base is based on geometric harmonics of the higher universes guiding streams which cause the matter to flow like liquid, so that the base is then formed out of the geometric flows of these higher Light streams.'

# MOON DOMES & TYCHO

- Dome upwellings appear & disappear on the Moon. In 1788, astronomer Schroeter attributed these domes to the industrial activities of the Selenite/Moon people

-V.A. Firsoff, *Strange World of the Moon*, (New York: Basic Books, 1960), p. 80

- 200+ white circular domes have been observed & catalogued on the Moon in modern times, by astronomers.

-Joseph F. Goodavage, "Did Our Astronauts Find Evidence of UFOs on the Moon?," *Saga*, April 1974, p. 48

These domes vary in diameter of 1/8th & 1/4 mile, averaging 1/2; Some 20-30 similar sized domes were seen clustered on the floor of TYCHO Crater

-George Leonard, *Somebody Else Is on the Moon*, (New York: Pocket Books, 1976), p. 61.

Such domes cannot be associated to rounded hills or volcanic upwellings.

The domes unpredictable appearance & disappearance indicate they are intelligently created movable structures
